Professional Summary

Detail-oriented and motivated B.Tech student specializing in Artificial Intelligence and Data Science with a strong foundation in programming, machine learning, and web development. Proficient in building responsive web applications using HTML, CSS, JavaScript, and React.js, with additional experience in data analysis and automation tools. Passionate about solving real-world problems through technology and eager to contribute to innovative projects in a collaborative environment while continuing to grow as a developer and data enthusiast.

Education

Bachelor of Technology (B. TECH) – Artificial Intelligence and Data Science

Current CGPA – 7.6

GL Bajaj Institute of Technology & Management | 2022 - 2026

Senior Secondary (XII), Science Stream

Percentage – 85%

Lucknow Public School | 2022

High School (X)

Percentage – 91%

Lucknow Public School | 2020

Technical Proficiency

Programming: C++, Python, C, SQL

Development Tools: VS Code, MySQL

Core Subject: Data Structure and Algorithms, Object Oriented Programming, Database Management System, Computer Networks.

Web: HTML, CSS, JavaScript, React.js

Certifications & Internships

RPA Developer Internship - AICTE & EduSkills (UI Path Academy)

Sep-Nov 2023

Completed a hands-on internship focused on Robotic Process Automation using UiPath, covering workflow automation and bot development.

Android Developer Internship - AICTE & EduSkills (Google)

Apr-Jun 2024 | Grade: Pass

Completed an Android Development internship with Google & AICTE, gaining practical experience in building mobile apps.

Cisco Certified Network Associate (CCNA) – Completed CCNA certificates via Cisco Networking Academy.

Python Essentials – Completed Python Certifications via Cisco Networking Academy.

GFG Hackathon – Actively participated in the GFG Hackathon, contributing to innovative problem-solving under time constraints, and was awarded a Certificate of Participation for demonstrating technical proficiency and teamwork.

Projects

Personal Portfolio Website

Tech: HTML5, CSS3, JavaScript, React.js

Developed a fully responsive and visually engaging portfolio website to showcase personal projects, technical skills, and contact details, aimed at creating a presence.

Implemented modular React.js components for dynamic rendering of project cards, smooth navigation between sections, and optimized loading performance.

Integrated advanced features such as dark mode toggle for user preference and robust client-side form validation to enhance user experience and accessibility.

Designed the layout using CSS Flexbox and Grid systems to ensure a clean, modern, and mobile-friendly interface compatible across all device sizes and browsers.

Personal Finance Tracker

- Developed a console-based Personal Finance Tracker using C++, implementing Object Oriented Programming (OOP).
- Integrated MySQL database to securely store, ensuring data integrity and persistence.
- Implemented core finance tracking features such as expense management and balance calculations through structured database queries.
